

Murillo/Malnati Homes Acquires New Site in Cathedral Heights Continuing its Cleveland Park Presence

May 2016

Murillo Malnati Homes, MMg's luxury single-family brand, has recently purchased 3117 38th Street NW. The 9,000 SF lot is slated for redevelopment to accommodate a new luxury 6,500 SF, 6-bedroom, 6-bath home in the Cathedral Heights neighborhood of Cleveland Park.

The new project was a collaborative effort between Nationally-recognized GTM Architects (www.GTMArchitects.com) and MMg's Carina Lopez Lagrotteria providing space planning and interior design.

The design collaboration is evidenced in the American Foursquare design which is known for being a reaction to the "ornate and mass-produced" elements of the Victorian and other Revival styles popular throughout the last half of the 19th century.

While large homes have become standard in the suburbs of Washington, growing families in the District find themselves with limited options. Murillo/Malnati Homes aims to respond to this demand by delivering modern single-family homes in key family-oriented neighborhoods to include all the features and amenities demanding consumers have come to expect.
